Experience

Nova

Industrial Design Co-op
8/22 - 12/22

Designed a variety of products (i.e. consumer goods, consumer electronics, packaging, etc.). Collaborated with Nova clients. Skills developed include research, brainstorming, sketching, CAD, 3D print prototyping, and product visualization (animations and rendering).

University of Cincinnati

Industrial Design Mentor
6/22 - 7/22

Guided underclassmen in industrial design through their personal projects. Analyzed their work to give them thorough critiques and conduct skill-share demos. Improved students' design portfolios and resumes, prepping them for their first co-op job.

Allegion

Industrial Design Co-op
1/22 - 4/22

Lead designer of a project, developing a suite of products for commercial buildings. Trend research, sketching, ideation, CAD, 3D print prototyping and testing, sanding, rendering, presentations, design team collaboration remote and in-person.

Milwaukee Tool

Lighting & Lifestyle Co-op
6/21 - 8/21

Designed headlamps through form development (digital sketching, CAD, and quick prototyping) and brand application, presenting concepts, and working cross-functionally with the marketing and engineering teams.

Education

University of Cincinnati, DAAP

B.S. in Industrial Design | 2023
Minor in Marketing
GPA: 3.9
Dean's List
Cincinnatus Excellence Scholar

Skills

Digital

Rhino, Solidworks, Autodesk Fusion 360, Creo, Keyshot (including animation), Adobe Creative Suite (InDesign, Illustrator, XD, Photoshop, After Effects), Digital Sketching and Rendering, Microsoft Office (Word, Excel, Powerpoint), Miro, Mural

Analog

Sketching, marker rendering, model making, functional prototype development, wood working, metal lathing research, ideation, sewing.
